Are Standards Provided?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No	
If yes - Please Describe (e.g. footpath width, gradients etc.)	Mostly fundamental solutions		
Topics of the guideline	Regulations and general recommendations issued by the National Board of Housing, Building and Planning on the removal of easily eliminated obstacles to and in premises to which the public has access and in public spaces		
Description of the guideline	Regulations and general recommendations issued by the National Board of Housing, Building and Planning on the removal of easily eliminated obstacles to and in premises to which the public has access and in public spaces; adopted on 30 October 2003. BFS 2003:19 HIN1 is a retroactive Swedish governmental directive on accessibility requiring the municipalities to remove different predefined types of existing barriers in public environments before 2010 (the “easily removed barriers” directives). Easily removed barriers are obstacles that can be deemed reasonable to remove in view of the benefit of the measures and the conditions at the site. The financial implications must not be unreasonably onerous for the property owner, the manager of the premises or the business operator. BFS 2003:19 HIN1 is further refined by BFS 2004:15 ALM1 which is valid for new constructions. The National Board of Housing, Building and Planning prescribes (cf. Govt Bill 2000/01:48, Report 2000/01: BoU, Committee on Housing, 5, Riksdag Comm. 2000/01:155.) the following under Section 5 of the Planning and Building Ordinance (Swedish Code of Statutes SFS 1987:383).		
Execution (one pick only)	<input type="checkbox"/> Advisory	<input type="checkbox"/> Partly mandatory	<input checked="" type="checkbox"/> Mandatory (Legally binding)
