Are Standards Provided?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
If yes - Please Describe (e.g. footpath width, gradients etc.)		
Topics of the guideline	Challenges of the changing age structure in Germany and how accessibility and mobility can nevertheless reached.	
Description of the guideline	The article deals with the demographic shift in Germany and its consequences for the mobility planning. It gives information about the changing age structure and the changing mobility behaviour of elderly people. It talks also about the problems which elderly people have to face in the public traffic space. At the same time it gives hints how to integrate barrier-free design into the planning and the renovation of public spaces.	
Execution (one pick only)	<input checked="" type="checkbox"/> Advisory	<input type="checkbox"/> Partly mandatory
		<input type="checkbox"/> Mandatory (Legally binding)
