Approach (you can pick more than one)	<input checked="" type="checkbox"/> Engineering, design, technology, planning	<input type="checkbox"/> Financial support, funding	<input type="checkbox"/> Organisational / operational support	<input checked="" type="checkbox"/> Awareness building, education

Are Standards Provided?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
If yes - Please Describe (e.g. footpath width, gradients etc.)	Detailed technical standards covering all aspects of public premises and public spaces	
Topics of the guideline	The book includes information on the rules and in-depth knowledge of what is needed to make the environment accessible and useful.	
Description of the guideline	"Bygg ikapp" ("Building away") is a handbook and reference book for use as a supplement to Boverkets rules for construction, BBR. The book includes information on the rules and in-depth knowledge of what is needed to make the environment accessible and useful. The reader finds also examples of solutions that meet the requirements of the regulations. This fourth version replaces "Bygg ikapp handikapp" ("Building away handicap"). It is primarily an adaptation to the new building regulations, BBR15. New experiences and knowledge has also been incorporated. The book is aimed at architects, contractors, planners and designers who want a deeper understanding of the needs of different disability entails.	
Execution (one pick only)	<input type="checkbox"/> Advisory	<input checked="" type="checkbox"/> Partly mandatory
Any More Comment?	See also "Quick reference for expert review. Complement to Building away handicap, version 3".
