Topics of the guideline	Accessibility to the dialogue between policy makers and those involved regardless of their abilities		
Description of the guideline	<p>E-vertyget (E-tool) is developed by Handisam and SKL and is used in the accessibility work for greater democracy. It increases participation of citizens regardless of their ability. The open and systematic presentation that the e-tool offers, creates more opportunities for constructive dialogue between policy makers and others involved. Four key functions:</p> <ul style="list-style-type: none"> <li>• comparison - municipalities' and regions' work to a standard template (see below)</li> <li>• comparison - one's own work with other municipalities or regions</li> <li>• good examples - see and show your own</li> <li>• a basis for communication / discussion and development</li> </ul> <p>The standard template consists of facts, issues and deepening questions of eight indicator areas:</p> <ol style="list-style-type: none"> <li>1. Policy</li> <li>2. Responsibility</li> <li>3. Collaboration</li> <li>4. Procurement/purchasing</li> <li>5. Physical Environment</li> <li>6. Information / communication</li> <li>7.
