Approach (you can pick more than one)	<input checked="" type="checkbox"/> Engineering, design, technology, planning	<input type="checkbox"/> Financial support, funding	<input type="checkbox"/> Organisational / operational support	<input type="checkbox"/> Awareness building, education

Are Standards Provided?	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
If yes - Please Describe (e.g. footpath width, gradients etc.)	Basic parameters concerning measurements of the living space and its surroundings for people with motor impairment.	
Topics of the guideline	Accessible surroundings (parking, entrance to the building, external stairs), building (ramp, driveway, windows, e;evators, corridors, internal stairs etc.), apartments (kitchen, bathroom, bedroom etc.), equipment.	
Description of the guideline	The publication is complimentary to the Building Law Act (July 1994) as well as to the Regulation on technical conditions of buildings and its location (2004). It includes additional information sources crucial for people creating working and living environment of the persons with reduced mobility. This publication encompasses guidelines elaborated on the basis of research done on Polish population including people on wheelchairs. Regarding this fact it is easier to arrange living space in an optimal way for users with specified motor impairment.	
Execution (one pick only)	<input checked="" type="checkbox"/> Advisory	<input type="checkbox"/> Partly mandatory
Any More Comment?	<input type="checkbox"/> Mandatory (Legally binding)
