Description of the guideline	<p>Streets for everybody is intended as an aid for building, furnishing and maintaining street areas in such a way that "everybody" can use them. The book can be used in two ways: firstly, as a source of advice and information on how to solve technical problems; secondly, as a joint platform for users and decision-makers when drawing up a local programme for accessibility. The book can be used both to find out what this entails and how to carry out such work.</p> <p>Table of content:</p> <ol style="list-style-type: none"> 1. People and needs 2.
